# HOME FIRE SAFETY CHECK

Did you know that if you are aged 50 or older, have a disability, impaired mobility, or a health condition that would impact on your ability to acknowledge and respond to an emergency in the home, then you are entitled to a free Home Fire Safety Check from Northern Ireland Fire & Rescue Service?

## WHAT IS A HOME FIRE SAFETY CHECK?

This is a visit to your home to offer detailed fire safety advice and ensure that your home is fitted with a working smoke alarm. This service is provided free of charge.

The visit will be carried out by Firefighters who work from your local fire station. They will spend time with you and help you to feel safe in your home.

## HOW DO YOU REQUEST A HOME FIRE SAFETY CHECK?

Please make contact as below:
